By the Grace of Allah, Meezan Bank has maintained its growth momentum and recorded excellent results for the half year ended June 30, 2017. Profit before tax increased to Rs 5,408 million from Rs 4,433 million in corresponding period last year reflecting a growth of 22%. The Bank's net spread before provision increased by 15% primarily due to Bank's continued focus to increase its financings portfolio and maintaining a lower cost of funds.

The Board has decided to increase the paid up capital of the Bank by approving 6% Right Issue of shares to existing shareholders at a price of Rs 50 per share inclusive of Rs 40 as premium per share in the ratio of 6 ordinary shares for every 100 existing ordinary share held by existing shareholders. This increase will support the Bank's growth plan and Capital Adequacy Ratio. The Right Shares offered will rank pari passu in all respect with the existing ordinary shares of the Bank.

Fee and commission income of the Bank grew by 63% over the corresponding period last year with major contribution from trade finance income and other banking services. The Bank's dividend income is higher mainly due to enhanced dividend distribution on its equity investments. The trade business volume handled by the Bank grew by 36% to Rs 327 billion as against Rs 241 billion in the corresponding period of last year.

### DIRECTORS' R E V I E W

The Bank focused on increasing exposure in financings to all sectors while simultaneously ensuring all the risk parameters are met. The Islamic financings and related assets of the Bank reached to Rs 339 billion to record growth of 9% from December 2016. The Bank's Advance to Deposit Ratio now stands at 57% as compared to 45% in June 2016. Notwithstanding this growth, it is commendable that the Bank has one of the lowest non-performing financings ratio in the banking industry of 2% as against an average of 10% for the industry as a whole that is testimony of the stringent risk acceptance parameter of the Bank. The Bank maintains comfortable level of provisions against its non-performing financings with coverage ratio of 120%.

The availability of Government of Pakistan (GoP) Ijarah Sukuk to deploy surplus liquidity continues to be a challenge for Islamic Banks. One auction of GoP Ijarah Sukuk was held during the half year but unfortunately the issue size was small as compared to the demand for such instrument which led to a price war and the cut-off price was lower than the equivalent instrument available for the conventional banks. This has negatively impacted the Islamic banking industry. The Bank was able to deploy Rs 11 billion in these three year sukuks at a cut off yield of 5.24%, i.e. 124 bps lower than the average three year PIB rate of 6.48% on similar instrument available to conventional banks.

On the liability side, total deposits reached Rs 593 billion to register a growth of 5%. Despite the intense competition in the industry and in the back-drop of a lower discount rate, the Bank not only expanded its deposit base but also continued to maintain an optimal cost of funds through strong relationship management and better customer experience. The CASA mix of the Bank stands at 76% of the total deposits while Current Account mix improved from 35% in 2016 to 36% of total deposits.

Administrative and operating expenses increased to Rs 8,588 million from Rs 7,475 million. The rise in expenses is primarily due to increase in staff expenses, rent and costs associated with new branches - an investment which has reaped fruits for the Bank, as is evident from the strong growth in deposits and profits over the years. The Bank maintained its position as the leading Islamic bank in Pakistan (amongst both Islamic as well as conventional banks) with a branch network of 571 branches in 146 cities.

The Finance Act 2017 has further extended the applicability of one-off Super Tax initially imposed in 2015 at the rate of 4% on the prior year taxable income of the Bank. This has resulted in additional tax charge, for prior year, of Rs 344 million which has negatively impacted the profitability of the Bank.

The Board has approved 17.5% (Rs 1.75 per share) interim cash dividend for 2017. The Bank has maintained unbroken payout record since the Bank's listing on Stock Exchange in the year 2000.

The JCR-VIS Credit Rating Company Limited, an affiliate of Japan Credit Rating Agency, Japan has reaffirmed Bank's long-term entity rating at AA (Double A) and short term rating at A1+ (A One Plus) with stable outlook. The short term rating of A1+ is the highest standard in short term rating. The JCR-VIS Credit Rating Company Limited has also reaffirmed Sub-ordinated (Tier II) sukuk rating at AA- (Double A minus). These ratings indicate sound performance of the Bank.

### DIRECTORS' R E V I E W

Islamic Banking is growing in Pakistan at a rapid pace and we are thankful to the State Bank of Pakistan and the Ministry of Finance for the support given in developing the Islamic Banking industry. One of the issues being faced by the industry is the shortage of GoP Ijarah Sukuk available to Islamic Banks so that they may meet the Statutory Liquidity requirements required by law and also deploy surplus liquidity. We are hopeful that with the efforts of the Ministry of Finance, SBP's Islamic Banking Department and Implementation Committee for promotion of Islamic Banking, there will be more Sukuk issues during the year.

The Board would like to express its sincere thanks and gratitude to the State Bank of Pakistan, the Securities and Exchange Commission of Pakistan and our Shariah Supervisory Board for their continued guidance and support. We also take this opportunity to thank our valued customers for their patronage, the shareholders and holders of Sub-ordinated Sukuk (Tier II) for their continued support and to the staff for their continuous efforts to make Meezan Bank a success. May Allah Almighty give us the strength and wisdom to further expand our vision of making Islamic banking as banking of first choice.

On behalf of the Board

17.4 The Income Tax Department has amended the deemed assessment orders of the Bank for the tax years upto 2015. The additions/ disallowances were mainly due to allocation of expenses relating to dividends and capital gain, allowability of provision against loans and advances, provision against investments and provision against other assets. In the amended order for tax year 2015, additional issues with respect to the taxability of gain on bargain purchase and non-adjustment of loss pertaining to HSBC Bank Middle East - Pakistan Branches have also been raised. The Bank has obtained stay order from the High Court of Sindh against the demands raised through the amended order for the tax year 2015. Both the Bank and the department have filed appeals with the Appellate Authorities in respect of the aforementioned matters.

The management of the Bank, in consultation with its tax advisors, is confident that the decision in respect of the above matters would be in Bank's favour and accordingly no provision has been made in this condensed interim unconsolidated financial statements with respect thereto. The additional tax liability in respect of gain on bargain purchase and non-adjustment of loss pertaining to HSBC Bank Middle East – Pakistan Branches is Rs. 1,096 million and Rs. 706 million respectively.
