^{*}The Bank has already submitted application for the Fit and Proper Test of the Director to the State Bank of Pakistan which is in process of reviewing the same.

The Board of Directors is pleased to present the condensed interim unaudited financial statements of Meezan Bank Limited and consolidated financial statements for the nine months ended September 30, 2021.

Islamic Banker of the Year Award

We are delighted to inform you that the Founding President and CEO of the Bank, Mr. Irfan Siddiqui has been recognized as the Islamic Banker of the Year at the Global Islamic Finance Awards 2021. The Board acknowledges the extraordinary contributions of the President and CEO in establishing the Islamic Banking Industry in Pakistan and transforming the financial landscape of the Country by delivering innovative Islamic banking solutions to masses. This recognition is an acknowledgement of the Bank's resolve for the Shariah Compliant Banking and has further strengthened our commitment to uphold our core values of shariah compliance, service excellence and integrity, Insha'Allah.

Economy

The cogent measures taken by the Government of Pakistan (GoP) and the State Bank of Pakistan (SBP) amid COVID-19 pandemic have borne fruit as the pace of the economic recovery exceeded beyond expectations. This robust recovery in domestic demand, coupled with higher international commodity prices, led to a strong pick-up in imports and rise in trade deficit which resulted in depreciation of Pakistani Rupee against the US dollar. However, notably, the SBP's forex reserves continue to rise and are at an all-time high of USD 19 billion in September 2021. Inflation fell from 9.7% (YoY) in June 2021 to 8.4% in July / August 2021. The SBP expects GDP growth in FY22 between the range of 4% to 5%.

On the back of strong economic rebound, in September 2021, the SBP raised the Policy rate by 25 basis points to 7.25%, after maintaining the Policy Rate at 7.00% for more than a year with an indication to keep the Policy Rate accommodative in near term, with possible gradual tapering of stimulus to achieve mildly positive real interest rates over time to protect the longevity of growth.

By August 2021, total funds received under Roshan Digital Account (RDA) rose to USD 2.1 billion. Alhamdulillah, Meezan Bank maintained its leadership in RDA and received multiple

awards from His Excellency the Prime Minister of Pakistan. The Bank is closely working with the SBP to bolster its Roshan Apna Ghar and Roshan Apni Car initiative which will have a positive impact on economy.

The COVID-19 infection rate in Pakistan fell around three percent with significant ramp up by the Federal Government in the vaccination program with almost 88 million doses till early October and daily vaccinations now clocking 1 million plus.

Under the drive initiated by the National Command and Operations Committee (NCOC), to make Pakistan COVID-19 free, the Bank established COVID Vaccination Centre (CVC) in Karachi, Lahore, Islamabad and Peshawar for staff with the support of NCOC and local health authorities. Further, as a responsible Corporate Citizen, the Bank joined hands with the Sindh Government and established CVCs for general public through two drive-through facilities and two mobile van services for general public in Karachi - more than 100,000 have been vaccinated through these initiatives. The Bank has also launched vaccination awareness drive by placement of banners.

Financial Highlights

By the grace of Allah, Meezan Bank continued its growth momentum and achieved excellent results for the nine months ended September 30, 2021. The Profit after tax of the Bank grew to Rs 19.57 billion from Rs 18.08 billion in the corresponding period last year, a growth of 8% while Earnings per Share - increased to Rs 12.03 per share from Rs 11.11 per share in corresponding period last year - on enhanced share capital of Rs 16 billion. The Bank is a well-capitalized institution with Capital Adequacy Ratio (CAR) of 18.98%, well above the minimum regulatory requirement of 11.50%.

We are pleased to inform you that the Board has approved Rs 1.50 (15%) per share interim cash dividend for the third quarter. This brings the total dividend payout for the nine months to Rs 4.50 (45%) per share as Rs 3.00 per share i.e 30% interim cash dividend was paid for the half year. This is in addition to 15% bonus shares issued in the last quarter. You will be glad to know that in August 2021, Meezan Bank became the most valuable bank in terms of market capitalization amongst all the listed banks on Pakistan Stock Exchange, which reflects investors' confidence on the performance of the Bank and its growth potential.

The Bank's return on financings, investments and placements decreased by 7% to Rs 77.6 billion from Rs 83.3 billion in September 2020 mainly due to decline in the Policy Rate to 7% from 9.6% (average) in the corresponding period last year. However, this decline in the Policy Rate has been substantially off-set by the higher volume of earning assets. Similarly, the return on deposits and other dues also decreased from Rs 33.6 billion to Rs 29.1 billion in September 2021 due to lower average Policy Rate and 45% increase in average current account balances from the corresponding period last year which helped the Bank to maintain an optimal cost of funds. On an overall basis, the net spread of the Bank dropped by 2% to Rs 48.5 billion from Rs 49.7 billion in the corresponding period last year.

DIRECTORS' R E V I E W

The Bank's fee and commission income grew by 70% to Rs 6.6 billion from Rs 3.9 billion in September 2020 mainly contributed by increase in debit card, trade and branch banking income. On an overall basis, the Bank's non-funded income recorded a 43% growth closing at Rs 10.3 billion. The total assets of the Bank grew by Rs 176 billion or 12% to Rs 1.7 trillion in September 2021 from Rs 1.5 trillion in December 2020 majorly driven by an all-round growth in the gross financing portfolio which increased by Rs 91 billion or 17% to Rs 623 billion from Rs 532 billion last year. After a gap of 7 months from January 2021, an auction of GoP Ijarah Sukuk was held on September 30, 2021 - a positive development for the Islamic Banking Industry. The Bank is working actively with the GoP and SBP for regular Sukuk issuance and the Bank's Shariah Board has also approved Shariah Structure for new Sukuk issuance.

Deposits of the Bank grew by 7% to Rs 1.34 trillion from Rs 1.25 trillion as at December 2020. The Bank's CASA deposits are now Rs 1 trillion plus or 81% of the total deposits after registering a growth of 14% from December 2020 in alignment with the Bank's focus on low-cost deposits.

Apart from investment in traditional brick and mortar, digitizing remains a key area of focus to instill operational efficiencies and ensure service excellence. With this spirit, the Bank is all set to launch its Merchant Acquiring initiative and e-Commerce Payment Gateway to rapidly grow digital payments in Pakistan and fulfill the needs of a vast majority of retailers and online businesses who have been looking for shariah compliant payment solution. The Bank's Mobile Banking App has been consistently ranked as No.1 Mobile Banking App in Pakistan by both Apple Store and Google Play Store.

As part of the Bank's endeavors to attract and retain key talent and align the interests of employees and shareholders for long-term value creation, the Bank has initiated the process of granting share options to its key employees under the Meezan Bank Employees Share Option Scheme (ESOS) approved by its shareholders and the Securities and Exchange Commission of Pakistan (SECP).

The VIS Credit Rating Company Limited (VIS) has upgraded the Bank's entity rating to the highest possible level of 'AAA / A-1+' which denotes highest possible credit quality, with negligible risk factors, being only slightly more than for risk-free debt of the GoP. Outlook

Islamic Banking has a strong potential in the country and the SBP in its third strategic plan for the Islamic Banking Industry 2021- 2025 has set a target to take the share of Islamic Banking assets and deposits to 30% of the total banking industry. We will continue to support the SBP in strengthening of Islamic Banking Industry and play our leadership role in achievement of these targets. The Bank will continue to expand its geographical presence across Pakistan and add more branches to its network, Insha'Allah to bring Islamic Banking solutions to the doorstep of unbanked population of the country.

The Board would like to express its sincere thanks and gratitude to the State Bank of Pakistan, the Ministry of Finance and the Securities and Exchange Commission of Pakistan for their continuous commitment to establish a viable Islamic financial system in the Country. We would also like to thank our Board members, members of the Shariah Supervisory Board, shareholders and holders of Sub-ordinated Sukuk (Additional Tier I) and (Tier II) for their continued support for establishing Meezan Bank as the Premier Islamic Bank. Most importantly, we are thankful to Allah Almighty for His continued blessings on our Bank which has enabled us to achieve this incredible performance in a very short span of time and we pray that He gives us more strength and wisdom to further expand our Vision of establishing Islamic banking as banking of first choice.

The Income Tax Department has amended the deemed assessment orders of the Bank for prior years including the tax year 2020. The additions / disallowances were mainly due to allocation of expenses relating to dividends and capital gain, allowability of provision against loans and advances, provision against investments and provision against other assets. In the amended order for tax year 2015, additional issues with respect to the taxability of gain on bargain purchase and non-adjustment of loss pertaining to HSBC Bank Middle East – Pakistan Branches have also been raised. The Bank has obtained stay order from the High Court of Sindh against the demands raised through the amended order for the tax year 2015. Both the Bank and the department have filed appeals with the Appellate Authorities in respect of the aforementioned matters.

The management of the Bank, in consultation with its tax advisors, is confident that the decision in respect of the above matters would be in Bank's favour and accordingly no provision has been made in this financial information with respect thereto. The additional tax liability in respect of gain on bargain purchase and non-adjustment of loss pertaining to HSBC Bank Middle East – Pakistan Branches is Rs 1,096 million and Rs 706 million respectively.

33 FAIR VALUE OF FINANCIAL INSTRUMENT

33.1 The Bank measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

(a) Financial instruments in level 1

Financial instruments included in level 1 comprise of investments in listed ordinary shares, listed sukuk, units of open end mutual fund and foreign sukuk classified as available for sale.

(b) Financial instruments in level 2

Financial instruments included in level 2 comprise of GoP Ijarah sukuk classified as available for sale.

(c) Financial instruments in level 3

Currently, no financial instruments are classified in level 3.

The Bank's policy is to recognise transfers into and out of the different fair value hierarchy levels at the date the event or change in circumstances that caused the transfer occurred.

There were no transfers between levels 1 and 2 during the period.

NOTES TO AND FORMING PART OF THE CONDENSED INTERIM UNCONSOLIDATED FINANCIAL INFORMATION (UNAUDITED) FOR THE NINE MONTHS PERIOD ENDED SEPTEMBER 30, 2021

Valuation techniques used in determination of fair values

Item	Valuation approach and input used
GoP Sukuk	The fair value of GoP Ijarah Sukuk quoted are derived using PKISRV rates. The PKISRV rates are announced by FMA (Financial Market Association) through Reuters. The rates announced are simple average of quotes received from eight different pre-defined / approved dealers / brokers.
Forward foreign exchange contracts	The valuation has been determined by interpolating the mid rates announced by SBP.
Foreign Sukuk	The valuation has been determined through closing rates of Bloomberg.
Listed Securities	The valuation has been determined through closing rates of Pakistan Stock Exchange.
Mutual Funds	The valuation has been determined based on Net asset values declared by respective funds.

Fair value of Islamic financing and related assets, other assets, other liabilities and fixed term deposits and other accounts cannot be calculated with sufficient reliability due to absence of current and active market for such assets and liabilities and reliable data regarding market rates for similar instruments. The provision for impairment of Islamic financing and related assets has been calculated in accordance with the Bank's accounting policy as stated in note 6.3.2 to the 2020 annual financial statements.

In the opinion of the management, the fair value of the remaining financial assets and liabilities are not significantly different from their carrying values since these assets and liabilities are short term in nature or in the case of financings and deposits are frequently repriced.

- **33.2** The table below analyses financial and non-financial assets carried at fair value, by valuation method. The different levels have been defined as follows:
 - Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1).
 - Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2).
 - Inputs for the assets or liabilities that are not based on observable market data (i.e. unobservable inputs e.g. estimated future cash flows) (Level 3).

33.3 Fair value of non-financial assets

Non-banking assets acquired in satisfaction of claims have been carried at revalued amounts determined by professional valuers (level 3 measurement) based on their assessment of the market values as disclosed in note 13. The valuations are conducted by the valuation experts appointed by the Bank which are also on the panel of State Bank of Pakistan. The valuation experts used a market based approach to arrive at the fair value of the Bank's properties. The market approach used prices and other relevant information generated by market transactions involving identical or comparable or similar properties. These values are adjusted to reflect the current condition of the properties. The effect of changes in the unobservable inputs used in the valuations cannot be determined with certainty, accordingly a qualitative disclosure of sensitivity has not been presented in this financial information.
